

Specifications	Description	Product Picture
Model	NOVA16	 
Laser Type	Hermetic CO2 laser tube	
Laser Tube	RECI 100/130/150 watts	
Controller	RD6442S for AEON	
Worktable	Honeycomb&aluminum blade	
Workspace	1600mm*1000mm*200mm	
Laser PSU	MYJG-100W/130W/150W	
Cutting Speed	0 ~ 300 mm / s 1.8G acceleration	
Engraving Speed	0 ~ 800 mm / s 1.8G acceleration	
Height Clearance	0~254mm	
Repeatability	±0.01mm	
Scan Accuracy	4000DPI	
File Formats	Vectors PLT, DXF, AI, CAD, CDR	
Chiller Unit	WJ5000/5200	
Lens	φ20mm, F=63.5mm, 101.6mm	
Mirrors	φ25mm	
Softwares	RDWorks V8.01 or LightBurn	
Wifi&autofocus	Available	
Machine Dimension	2150*1605*1025mm	
Gross Weight	750KG	
Power Input	110V 60Hz, 220V 50Hz~60Hz	

Features

1. Free maintenance "CleanPack" technology protects the motion parts and reduces the typical problems caused by dust, smoke and debris at least 80%.
3. The NOVA series can be divided into several separate parts so you can go through narrow corridors and standard doors.
4. The 35mm high through door at the back allows the user to cut long materials.
4. Locked access panels and keyed ignition make NOVA suitable for business, manufacturer spaces, or educational programs.
